Xtension Recorder: Cost Effective 'true digital' recording!

Xtension Recorder simply connects in line with Vodavi digital telephones and plugs into the USB connector on any PC. Using Comvurgent's **'True Digital'** technology, **Xtension Recorder** stores conversations in the same high quality format as your digital telephone ensuring excellent sound quality.

Because talk isn't cheap...

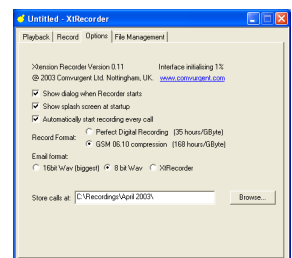

There are many valuable reasons why companies record telephone conversations:

- **Customer Service Quality Monitoring** - recording calls ensures best practice.
- **Transaction recording** - record critical information to ensure accuracy of transactions.
- **Compliance Monitoring** - ensure industry regulations are met.
- **Security Alerts** - record bomb/violence threats and verbal abuse.

Flexible set-up for multiple applications

Set-up Options Include:

- Record all calls or manually select which to record.
- Use compression to save disc space.
- Save calls locally or on a network server for centralized monitoring and playback.

Almost every company has a Call Record application that can deliver substantial business benefits. *What's yours?*

Some Application Ideas:

- **Message Taking** - use **Xtension Recorder** to record a message instead of writing it down. E-mail the message to the recipient. It's like a mini Unified Messaging system.
- **Customer Service Desks** - **Xtension Recorder** is a great training tool. Move it around to different agents to monitor activity from time to time.
- **Operator Positions** - monitor how those important callers are being answered and transferred.
- **Call Centers** - install **Xtension Recorder** at each desk and record to a central server location for supervisor listening.
- **Conference Calls** - record those important discussions and decisions.
- **Dictation** - **Xtension Recorder** allows you to dictate directly into your phone and e-mail the recording to an assistant.
